Final-year Computer Science Engineering student with a strong interest in Artificial Intelligence, Product management, and leadership-driven problem solving. Experienced in building real-world applications, conducting machine learning research, and leading high-impact student organizations. Passionate about combining technology, creativity, and management to build meaningful solutions.

WORK EXPERIENCE

GTM Product Manager

Apr 2026 – Present

StepsAI

Hyderabad, India

- Owned GTM and product execution for an AI SaaS product, including market research, competitor analysis, customer segmentation, lead generation, outbound campaigns, demos, and sales follow-ups.
- Built and managed a 100K+ lead database, sourced decision-maker contacts, created sales playbooks, outreach campaigns, pitch decks, and customer personas to improve lead generation and client conversion.
- Conducted customer demos, gathered product requirements, translated customer pain points into clear inputs for the tech team, and personally contributed ₹1L+ in MRR through solution-led selling.

Operations Manager

Nov 2025 – Apr 2026

Curvedge Modulars

Hyderabad, India

- Managed order coordination, inventory tracking, vendor follow-ups, and delivery scheduling, reducing order delays by 20% and improving on-time furniture deliveries by 27%.
- Supported website updates, product listings, order-flow setup, and internal tracking processes, improving operational visibility and reducing manual follow-ups by 30%.
- Worked with sales, warehouse, production, and support teams to identify process gaps and streamline communication, improving issue resolution turnaround by 35%.

AI/ML Research Intern

May 2025 – Jul 2025

GITAM Deemed to be University

Hyderabad, India

- Built a phishing detector with 97% accuracy, cutting errors by ~40% vs. prior work; improved data quality and feature selection.
- Verified with 5-fold cross-validation; <1ms prediction time for real-time use. Tools: Python, PyTorch, scikit-learn.

PROJECTS

You (me) Us.

Jul 2025 – Present

- Co-Founder and author of a mental health blog fostering open dialogue on well-being, reducing stigma, and sharing evidence-based insights.
- Recognized for clear communication, empathetic writing style, and commitment to mental health advocacy.

Fuel-Split Calc

Feb 2026

- Engineered and deployed a cloud-hosted full-stack fuel-sharing application enabling real-time multi-trip cost calculation.

Quantum-Inspired Attention Fusion Network for Phishing Detection

May – Jul 2025

- Built a phishing website detector using a 5-model deep-learning ensemble; reached 97.02% test accuracy and cut errors by 40% vs. a well-known 2019 baseline; improved training via targeted loss focusing and learning-rate tuning.

SKILLS

Hard Skills: Python, SQL, Jira, MS Tools, Claude

Soft Skills: Communication, Leadership, Problem-solving, Interpersonal skills, Management, Critical Thinking

CERTIFICATIONS

Programming for Everybody (Getting Started with Python) — University of Michigan

Apr 2024

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Vice-President

The Filmmakers Club

Aug 2025 – Apr 2026

Hyderabad, India

- Led creative marketing campaigns increasing student engagement by 50%.
- Coordinated collaborations with external partners and managed club growth initiatives.

Vice-President & Cultural Team Lead

KALAKRITHI

Jun 2024 – Jun 2025

Hyderabad, India

- Organized large-scale cultural events attracting over 3,000 students.
- Improved organizational visibility by 30% through strategic promotion.

EDUCATION

Bachelor of Technology, Computer Science Engineering

GITAM University

Aug 2022 – May 2026

GPA: 7.83
